5. Economics and Law
Researchers are organized in interdisciplinary research groups relating to the following fields:

- Health, demographic change and well-being
- Food security, sustainable agriculture, marine and maritime research and the bio-economy
- Secure, clean and efficient energy
- Inclusive, innovative and secure societies
- Social sciences and ICT, digital humanities, communication, media, information society
- Cultural Heritage including Multilingualism issues
THE PROMOTION AND DEVELOPMENT OF THE FISHERY SECTOR IN THE ADRIATIC IONIAN MACROREGION

Contacts: Andrea Caligiuri, andrea.caligiuri@unimc.it, Federico Niccolini, federico.niccolini@unimc.it

Macro objectives:

- Conservation and improvement of fish stocks in the area in question
- Contribution to sustainable socioeconomic development, in particular small businesses and local employment (small fisheries, recreational activities, and restaurant activities)
- Contribution to quality improvement, differentiation and deseasonalisation of the tourism proposals
PROMOTION AND VALUING OF THE CULTURAL HERITAGE OF THE ADRIATIC IONIAN MACROREGION

Contacts: Francesca Coltrinari, francesca.coltrinari@unimc.it

Objectives:

- Increase in the appeal of the Macro region;
- Valuing of cultural heritage and innovation of cultural offer;
- Deconcentration of tourism flows in terms of space and time: a) deseasonalisation; b) increase of tourism in internal and/or peripheral areas, with respect to traditional tourism circuits;
- Cooperation between public and private individuals in the tourism-cultural sector, also through universities acting as DMOs;
- Integration between production supply chains (culture, environment, tourism, food and wine);
- Socio-economic development and an increase in employment in internal and/or peripheral areas.
ENERGY GOVERNANCE OF THE ADRIATIC-Ionian REGION

Contacts: Andrea Caligiuri, andrea.caligiuri@unimc.it, Andrea Prontera, andrea.prontera@unimc.it

Objectives:

- To analyse the architecture of governance created in the Adriatic Ionian region and assessing is potential and its limits in stimulating the sustainable development of energy infrastructures and in creating an efficient energy market on a regional basis.

- To define a model of upstream governance, through an analysis of the transformations in policies and legal regimes relative to the sustainable development of conventional resources such as oil and gas.
Marine Resources Management Plan for the Adriatic and Ionian Region (MaReMaP-AIR)
Principal Investigator: Andrea Caligiuri, andrea.caligiuri@unimc.it
web: www.unimc.it/maremap

CROSS-cultural doors. The perception and communication of cultural heritage for audience development and rights of citizenship in Europe (CROSS-SHIP)
Principal Investigator: Francesca Coltrinari, francesca.coltrinari@unimc.it
Opportunities for international students

Call for applications for scholarships to be awarded to international students enrolling in a two years master’s degree (a.a. 2015-2016):
www.unimc.it/en/about/calls-for-applications-and-public-competitions

Special attention to students from the countries of the Adriatic-Ionian Macroregion
University of Macerata
Piaggia della Torre, 8 - 62100 Macerata - Italy
